## Drivers

“I give it a 10/10 for ease of use and content. I did the training on a tablet. It is user friendly, well laid out, self-explanatory and engaged me for the full time. It helps to keep me on track, I give it a 10/10 for ease of use and content.”

**Greg Wood • Specialist Glass Products**

“I think the training is great, it refreshes us with what we drivers need to know. It has made me more conscious of what is going on around me. I think all road users should do this training. Overall, the training helps me be more professional, and more considerate to all road users.”

**Andy Donovan • Altron Communications Ltd**

## Admins - Transport/Operations Managers

“The Road Skills Online solution – is easy to use, our drivers enjoy the content, and they learn something from it. It saves us time and money and there’s a variety of topics about specific risks that the drivers face on a daily basis. There are no negatives, especially as it helps us to meet the requirements of the FORS Bronze and Silver PDP standards and makes it really easy for us to evidence that as well. Overall, it’s a brilliant system.”

**Sian Panton • General Manager – Sussex Transport**

“The Road Skills Online Toolbox Talk training is really easy to use, it saves me the big job of delivering TBTs regularly to our drivers. Our Drivers find it simple to use, mainly completing the training on their smart phones. Our drivers recognise the e-learning is part of their job. We’ve seen significant improvements in operational efficiencies since having Road Skills Online Professional Development regular driver e-learning in place. We would recommend anyone to use this training and gain the benefits of this continuous e-learning.”

**Samantha Heaton • Front of House Administrator - Moorhead Excavations Ltd**

“The Professional Development Plan online training is brilliant – it gives everyone enough time to let the learning points sink in and it’s so easy to use. I can’t imagine not relying on Road Skills services to maintain our FORS and highly recommend them to other companies.”

**Carl Roberts • Transport Manager - George Roberts & Son**

“The online training is working well. The test at the end of each Toolbox Talk means the Drivers pay attention to the learning points, taking in the training much better than when they just read a TBT or when we discuss a specific TBT subject.”

**Vicky Lowther • Assistant Transport Manager - Modern Plant Hire Ltd**

“We have signed up for year two of the PDP and would highly recommend the training to other companies. It's been so easy to implement and saves me a lot of time and hassle. It was great at the FORS Bronze audit, as we used the Admin Dashboard as our evidence for the continuous part of our D4 Professional Development Plan.”

**Kelly Burton • Projects Assistant - Gramm Barrier Systems Ltd**

“I have logged on and done the training myself. I am impressed and think the learning points and five questions are just right. This e-learning is certainly helping me time wise.”

**Graham Wood • Operations Manager C Soar & Sons**

“The Training is short and simple to use which is ideal for drivers to fit into their days. The questions make you really think about the video learning points within the Toolbox Talks. One of our Drivers (James) came into the office to spark conversations about the Toolbox Talk questions and answers. We feel this is a really positive way to engage with our drivers.”

**Ryan Merivale • Plant Hire Manager – BOA Plant Ltd**

“The online Professional Development Plan for drivers is brilliant. The Toolbox Talks are informative, relevant and take 10 to 15 minutes once a month which is perfect.”

**Mark McNamara • FORS Co-ordinator and Driver – Road Planing Supplies Ltd**

## Directors

“It's Brilliant! It's taken one big worry off me. Keeping up to date with a continuous, consistent Professional Development Plan was a nightmare. It's given me control of our PDP, saving me time and providing quality relevant training.”

**Robin Wells • MD - Direct Chemicals Ltd**

“This e-Learning solution is a great way to deliver our continued professional development plan training. It's saving me so much time and hassle. It's an efficient and consistent way to deliver our continuous PDP TBTs and our Drivers like it. After completing my first year with Road Skills' PDP e-Learning, I signed up for year two without hesitation as it does exactly what it says on the tin.”

**Chris Wells • Director - Mtec Warehousing Ltd**

“The Professional Development Plan e-Learning from Road Skills Online has helped us to provide regular e-learning to all our drivers on relevant topics. This keeps drivers aware of what we want them to know to maintain our O Licence, drive safely and it supports our Driver CPC training Programme.”

**John Law • Operations Director – Law Distribution Ltd**

“You can only entrust people to train you if you think they understand your needs and what you're trying to achieve. That's why I've worked with Road Skills for more than 20 years. Their online Professional Development Plan for drivers, is an ideal solution to help us improve driving standards and meet our insurers training requirement.”

**James Wilkinson • MD - Austin Wilkinson**
